SUMMARY

Full Stack Web Developer with a background in Food Engineering and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly web applications. Known among staff for being strong with and attention to detail no matter the complexity of the project.

TECHNICAL SKILLS

HTML, CSS, JavaScript, Bootstrap, JQuery, Ajax, Node, OOP, Node, Express, SQL Databases, MVC, Sequelize.

PROJECTS

● Password Generator
GitHub Repo Link: https://github.com/birolezgin/Password-Generator-HW3.git
Deployed Project: https://birolezgin.github.io/Password-Generator-HW3/
Application uses Html, CSS and Javascript. This generator generates the password that includes upper cases, lower cases, numbers and symbols randomly with a minimum length of 8 and maximum length of 128.

● Code Quiz
GitHub Repo: https://github.com/birolezgin/Code-Quiz-HW.git
Deployed Project: https://birolezgin.github.io/Code-Quiz-HW/
This code quiz application uses HTML, Bootstrap CSS, CSS and Javascript. Quiz works with the timer and it saves the result after user initial input. When the user chooses the wrong answer additional decrementing places on the timer.

● Work Day Scheduler
GitHub Repo Link: https://birolezgin.github.io/Work-Day-Scheduler-HW/
Deployed Project: https://birolezgin.github.io/Work-Day-Scheduler-HW/
Work day scheduler application runs in the browser and features dynamically updated HTML and CSS powered by jQuery. Uses the Moment.js library to work with date and time.

● Note-Taker
GitHub Repo: https://github.com/birolezgin/Note-Taker-HW11.git
Deployed Project: https://calm-tor-33648.herokuapp.com/
This application can be used to write, save and delete notes. This application will use an express backend and save and retrieve note data from a JSON file.

WORK EXPERIENCE

Process Engineer   2010-2017
Kayseri Sugar Factory   Kayseri, Turkey
● Maintained employee schedules to ensure all shifts were covered and enough staff was present to assist customer needs.
